S.S.C   Malavya Nagar, Tirupati(Dist)
CGPA: 8.7

SKILLS

Programming Languages	JAVA BASICS, HTML5, CSS3, JavaScript (ES6+)
Libraries/Frameworks	React.js
Tools / Platforms	Vs Code, Eclipse
Databases	SQL

PROJECTS / OPEN-SOURCE

PORTFOLIO WEBSITE | Link   HTML5, CSS3 & JavaScript (ES6+)

Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript. Showcases my education, skills, projects, certifications, and contact details in a clean layout. Integrated smooth scrolling and animated section transitions for enhanced user experience. Implemented interactive navigation with fixed header and section-based scrolling. Included dynamic icons and buttons with hover effects and link redirections to GitHub and LinkedIn. Hosted and maintained the portfolio to demonstrate frontend development proficiency.

TASK BUDDY | Link   HTML5, CSS3 and React (with Vite) + JavaScript(ES6+)

TaskBuddy is a modern, front-end task management application built using React (Vite). It showcases best practices in component design, state lifting, and user experience. Features include adding tasks, deleting tasks, marking tasks complete/incomplete, filtering/sorting tasks (if implemented), and persisting tasks in LocalStorage. The UI is responsive, visually approachable, and designed to be accessible. TaskBuddy is ideal as a portfolio piece to demonstrate competence with React, modular CSS, and deploying to GitHub Pages.

CERTIFICATIONS

- Full Stack Java 6 Weeks Short - Term Internship - ExcelR
- HTML and CSS 3 Months Internship - Brain O Vision
